RE: Arkwright Summit Wind Farm
Supplemental Environmental Impact Statement

Dear Mr. Adams:

Enclosed please find one copy of the Supplemental Environmental Impact Statement (SEIS) for the Arkwright Summit Wind Farm (Project), formerly known as the New Grange Wind Farm. Ten copies of the SEIS have also been submitted to Fred Norton, Town of Arkwright Town Supervisor, for distribution to the Town Board and the Town's attorney, Dan Spitzer. The SEIS has been prepared pursuant to the New York State Environmental Quality Review Act (SEQRA) and regulations (6 NYRR Part 617).

The enclosed contents also include a full copy of Appendix C, Wetlands Delineation Report, for your reference. As discussed, we have not included the appendices to the Wetlands Delineation Report in each SEIS due to the large number of data sheets and photos that comprise the appendices.

This SEIS has been prepared with input provided your company in its role as Town's consulting engineer. We have provided advance draft copies of all of the sections and studies contained in the SEIS and the Project team has diligently responded to comments and suggestions resulting from your review. Hence, we believe this document meets the requirements of SEQRA and "is adequate with respect to its scope and content for the purpose of commencing public review."

We look forward to a comprehensive, public review of the Project and SEIS. The Arkwright Summit Wind Farm team stands ready to respond to any and all questions, comments, and requests that may arise from the public, the Town, the consultants, and agencies.

Thank you very much for your attention to this submittal.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tom Stebbins", is written over a horizontal line.
