

Date: January 3, 2006
ASI ID: 05-N-0255.NY.009
Site ID: Marble River Project
Structure Height: 404 Feet AGL

Horizon Wind Energy
3 Columbia Place
Albany, NY 12207

ATTN: Patrick Doyle

Attached please find the current list of proposed turbine locations comprising the Marble River Wind Power Project, with the lighting proposal for each individual turbine. This lighting plan was developed in compliance with the FAA Advisory Circular (AC) 70/7460-1K, Change 1 and on the basis of our discussions with FAA Regional offices regarding their current policy. However, final review by FAA could require some changes. The lighting plan calls for the lighting of 96 out of 109 wind turbines, the equivalent of 88.07%. Please note that any changes to the project may require the development of a new lighting plan.

Sincerely,

Jerry Chavkin
Vice President of Airspace Operations
