

Pleasantville Solar Park

Fulton County, Illinois

Pleasantville Solar Park will be a solar power generation facility that will provide affordable, reliable energy to the power grid through the Midcontinent Independent System Operator (MISO) utility system. The solar park will be located in Fulton County, Illinois and will complement the area's agricultural land use.

150 MW

ESTIMATED COMMERCIAL
OPERATION DATE **2025**

Pleasantville Solar Park's generation will be equivalent to the average consumption of **more than 38,000 of Illinois homes.**¹

Pleasantville Solar Park will save **more than 190 million gallons** of water each year and will prevent the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT³
\$234 million

\$31.6 million
WILL BE PAID TO LOCAL GOVERNMENTS

Millions of dollars
WILL BE PAID TO LANDOWNERS

Millions of dollars
WILL BE SPENT LOCALLY⁴

PERMANENT JOBS⁵
5+ jobs will be created

CONSTRUCTION JOBS⁵
300 jobs will be created

About us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms, solar parks, and energy storage systems throughout North America. Headquartered in Houston, Texas, with 61 wind farms, 18 solar parks, and eight regional offices across North America, EDPR NA has developed more than 11,200 megawatts (MW) and operates more than 10,200 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR). EDPR is a global leader in renewable energy development with a presence in four regions including Europe, North America, South America and Asia Pacific. We have a sound development portfolio of top-level assets and market-leading operating capacity in renewable energies.

Our business encompasses onshore wind, distributed and large-scale solar, offshore wind (through a 50/50 joint venture – Ocean Winds) and complementary technologies to renewables, such as hybridization, storage and green hydrogen.

With 16.5GW deployed across multiple technologies and a €12 billion investment plan up to 2026, we are committed to driving social progress with a particular focus on sustainability and integration. Our employee-centered policies have earned EDPR a listing in the Bloomberg Gender-Equality Index and led to recognition as Top Employer 2024 across Europe, Singapore, Brazil, Colombia and Chile.

EDPR is a division of EDP, a global leader in renewables and the energy transition with over 13000 employees worldwide. The group is committed to becoming coal free by 2025 and all-green by 2030, a global ambition that reflects EDP's role and accelerates its sustainable growth over the longer term. In addition to strong renewable assets, EDP also operates across the globe in electricity networks, client solutions and energy management. The group is acknowledged as the most sustainable electricity company in the Dow Jones Sustainability Index.

Pleasantville Solar Park will consist of **bifacial tracking solar photovoltaic panels**.

Power generated at Pleasantville Solar Park will support **Illinois' electric grid**.

Pleasantville Solar Park will **help strengthen energy security** for the state of Illinois and the United States, helping diversify domestic supply.

In the first three quarters of 2023, solar energy comprised of **48% of all new generating capacity**.⁶

¹Power generation calculated using a 25% capacity factor. Household consumption based on the 2022 EIA Household Data monthly average consumption by state.

²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³Assumes utility fixed-tilt projects are \$1.02/Wdc, and single-axis tracking projects are \$1.11/Wdc. Based on Q3 2023 SEIA U.S. Solar Market Insight.

⁴Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

⁵Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁶Solar Energy Industries Association, Solar Data Cheat Sheet, 2023.
