

Riverstart Solar Park III

Randolph County, Indiana

Riverstart Solar Park III will be 100 MW and located approximately 80 miles northeast of Indianapolis in eastern Indiana. Located entirely within Randolph County, the solar park will complement the area’s agricultural resources with a stable, weather resistant cash crop in the form of landowner lease payments.

100 MW

ANTICIPATED COMMERCIAL
OPERATION DATE **2024**

Riverstart Solar Park III’s generation will be equivalent to the average consumption of more than **19,000 Indiana homes**.¹

Riverstart III will save more than **127 million gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

About us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms, solar parks, and energy storage systems throughout North America. Headquartered in Houston, Texas, with 61 wind farms, 18 solar parks, and eight regional offices across North America, EDPR NA has developed more than 11,200 megawatts (MW) and operates more than 10,200 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR). EDPR is a global leader in renewable energy development with a presence in four regions including Europe, North America, South America and Asia Pacific. We have a sound development portfolio of top-level assets and market-leading operating capacity in renewable energies.

Our business encompasses onshore wind, distributed and large-scale solar, offshore wind (through a 50/50 joint venture - Ocean Winds) and complementary technologies to renewables, such as hybridization, storage and green hydrogen.

With 16.5GW deployed across multiple technologies and a €12 billion investment plan up to 2026, we are committed to driving social progress with a particular focus on sustainability and integration. Our employee-centered policies have earned EDPR a listing in the Bloomberg Gender-Equality Index and led to recognition as Top Employer 2024 across Europe, Singapore, Brazil, Colombia and Chile.

EDPR is a division of EDP, a global leader in renewables and the energy transition with over 13000 employees worldwide. The group is committed to becoming coal free by 2025 and all-green by 2030, a global ambition that reflects EDP's role and accelerates its sustainable growth over the longer term. In addition to strong renewable assets, EDP also operates across the globe in electricity networks, client solutions and energy management. The group is acknowledged as the most sustainable electricity company in the Dow Jones Sustainability Index.

Riverstart Solar Park III will consist of thousands of solar photovoltaic panels.

The power generated from Riverstart III will support **Indiana's electric grid.**

Riverstart III will **contribute to the national energy security** for the state of Indiana and the United States, helping diversify domestic supply.

In 2021, **solar energy represented nearly 46 percent of all newly installed U.S. electric capacity.**⁷

¹Power generation calculated using a 35% capacity factor. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³Assumes the average cost of an installed solar photovoltaic system is \$0.90/watt for a utility-scale project. Based on 2019 SEIA U.S. Solar Market Insight.

⁴Includes vendor spending, property taxes, landowner payments and wages from site jobs.

⁵Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁶Riverstart Solar Park Offtakers: Hoosier Energy (PPA)

⁷Based on SEIA and Wood Mackenzie, Power & Renewables U.S. Solar Market Insight Q2 2022.
